designs

### ***Design brief:***

Create a new website for Bude Jive Club. The majority of the websites content will be changeable by the client to allow for up to date news and events. The website will have an admin section for changing the content.

### ***Agenda:***

1. ~~Create the basic framework or the main websites~~
2. Style the main website using CSS
3. Create the dashboard site for changing content on public website
4. Style the dashboard site
5. Create database structure using MySQL.
6. Add content to the database
7. Code the news bar
8. Link dashboard site to database
9. Make Dashboard site secure with user login system
10. Prevent HTML codes in dashboard
11. Correct Dashboard punctuation with ampersands
12. Client changeable head image
13. Different style sheet for printing
14. Error page system
15. Logging/tracking system
16. Landing page

(Strike Through = Completed)

### ***Additional Agenda's:***

Additional Agendas for the project can be discussed added at the group meetings.
