Minutes:

What the project needs before the end of the current sprint:

- Dashboard of the site needs to be style and content added.
- Database that holds all of the sites content to be created and structured.
- Main user site styling to be finished including the gallery page and calender page.

Team members work agree for this sprint.

- Emma: Styling and content of the dashboard.
- Ben: Database structure and content.
- Joe: Finish styling of the main site and create gallery page.

Other work for this sprint.

- Calender page added with upcoming events (and old events).
 - Added after content is added to the database.

Other:

- Organise a meeting with our client for early January.

Date of next meeting: 06/01/14
